**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 6-8, drawn to an SGR gene encoding a polypeptide.

Group II, claim(s) 5, drawn to an SGR polypeptide.

Group III, claim(s) 9-16, drawn to a method of producing a stay green mutant plant by mutating the SGR gene, and plant thereby.

Group IV, claim(s) 17-30, drawn to a method of producing a stay green mutant plant comprising suppressing expression of the SGR gene, and plant thereby.

Group V, claim(s) 31-35, drawn to a method of producing a stay green mutant plant by inactivating the SGR protein.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because the special technical feature of a mutant plant having the stay green phenotype was known in the art; Cha, K.W. et al. teach isolation, characterization, and mapping of the stay green mutant in rice; in Theoretical and Applied Genetics, March 2002; Vol. 4, No. 4, pp. 526-532.

The claims are directed to independent and distinct nucleic acid sequences of SEQ ID NO: 1 to 21 and 28 and their corresponding amino acids of SEQ ID NO: 30 to 50 and 57. Upon election of one of Groups I-IV or V, Applicant is required to elect a single polynucleotide sequence of SEQ ID NO: 1 to 21 or 28 and/or a single corresponding single amino acid sequence of SEQ ID NO: 30 to 50 or 57. This requirement is not to be construed as a requirement for an

election of species, since each of the nucleic acid sequences or amino acid sequences recited in alternative form is not a member of a single structurally and functionally related genus, but rather constitutes an independent and patentably distinct invention. Separate searches and considerations would be required for examination of each of the nucleic acid sequences.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
